

EAM-I 2009 Presenter info

To: All Authors/Presenters

We look forward to the presentation of your work at the EAM-I 2009 Meeting in Rio de Janeiro, Brazil.

To view information on your session, download manuscript files, and view contact information for all session participants, please go to:

http://eamiconference.org/acms/session_details.asp

(you will need to log into you EAM-I account to access this page)

At EAM-I, we try to encourage a lively exchange between the authors and the audience, and also among the authors. At the link above, you will be able to access the proceedings manuscripts of other presentations in your session. We hope that you will read these manuscripts before coming to the conference, as this will facilitate greater engagement with fellow authors' work and also more probing discussions during sessions. It is a way to take full advantage of the 'real time' together.

General presenter guidelines and tips can be found at:

<http://eamiconference.org/EAMIPresenterGuidelines.pdf>

A computer (with PowerPoint) and LCD projector will be available for your presentation. Please save your PowerPoint presentations on a USB memory stick or CD and bring it with you to the session. Please note that no internet access is available in session rooms.

EAM-I sessions allow ample time for audience interaction. For example, for a 75 minute session with 3 papers, authors have 15 minutes to present each paper, and the remaining 30 minutes are used for dialogue between presenters and the audience.

I look forward to seeing you in Rio!

Sincerely,

Kate Suchon
EAM-I 2009 Program Chair
